New York Stock Market

New York, April 3.—Until the last half-hour of trading to-day the stock market did little. Then the list advanced suddenly with Reading and the copper stocks in the lead. Reading was rushed up 31-4 points. Early in the day the market registered the effect of moderate pressure from board room traders, but declines were moderate. Losses were gradually made up and the final upturn placed a number of stocks from 1 to 3 points above of stocks from 1 to 3 points above

yesterday's closing.
Trading was dull most of the session. Although Wall Street has viewed the coming revision of the tariff during recent months with a degree of indifference which has been a matter of comment, the fact that the convening of Congress is now only a few days off forced itself upon traders today. Various unofficial accounts of the character of the tariff measures to be presented received considerable attention and served as a basis for bear

chief movements of the day The chief movements of the day prior to the spurt at the close were among the specialties. Rumely's annual report showing over 10 per cent carned on the common stock caused an advance of over 5 points in that stock. Can and Biscuit also were strong. Rubber, Canadian Pacific and Chesapeake and Ohio were heavy. Buying of the comer stocks was ining of the copper stocks was in-fluenced by reports of an improving tendency in the metal market. One of the large selling agencies was reported to have raised its price to 151-2 cents. Bonds irregular, Total sales, par value, \$2.025,000. United States nds unchanged on call.

rate, 4; closing bid, 3.2-4; offered at 4. Time loans steady, slxty and nine-ty days and six months, 4.3-4.65 per cent. Prime mercantile paper, 5-1-2 mercantile paper, 5-1-2 for demand. Commercial bills, \$4.82.5-4. Bar silver, 58-1-2 Mex. can dollars, 471-2. Government bonds steady; railroad bonds, irregular.

New Orleans. April 3.—Persistent Hquida-dation of the long account was a feature of the cotton market to-day, and it resulted in putting prices under the level of yesterday's close after an advance above in the early season. The desire of owners of long contracts to even-up prevented new business by frightening off buyers among outside traders. In the opening the tone was steady and prices were 408 points up. Cables were better than due, but were balanced to some extent by a very favorable weather map. Considerable buying was stimulated in the early hours by the forecast of rain over a storm area centred, on the map, over Arkansas. It was feared that this would aggravate the river situation. At the highest prices were 478 points up, which was the algh level of the day. Liquidation set in around the middle of the morning on a large scale, and offerings from longs worked on prices continually from then on. In the afternoon the market went 305 points under yesterday's final agures. The close was quiet and steady. Spot cotton quiet and unchanged: middling, 179-18c., sales on the spot 15 bales and 310 to arrive. Closing futures: January, 11.60; April, 12.55; May, 12.46; July, 12.36; August, 12.12; September, 11.68; October, 11.58; December, 11.69.

Odds and Ends From the Wire

LOBSTER VERY SCARCE.

Boston Wholesale Markets Absolutely Cleaned Out. ed Out.

Boston, April 3.—There is hardly a dry eye among chorus girls to-night, and the weeping and gnashing of teeth drowns out even the press agent's yarns about lost jowels. All of this because lobster is scarce and has become too expensive even for softinearted and equally soft-headed Johnnies.

The last consignment, a small one, was sold to a New York concern a few days ago for 75 cents a pound. The normal price is about 25 cents.

LATE TRADING IS

Nearly Half of Day's Transaction in Street in Last Hour.

BY BROADAN WALL. New York, April 3 .-- An April market, dull and uncertain during the morning, bright, active and thoroughly springlike in the late trading.

Nearly half of to-day's transactions occurred in the last hour, with a sharp rise in prices that reminded brokers of other and happier days.

The market opened dull, with narrow changes. Steel showed a gain, and rose to 62 7-8. Canadian Pacific started with a decline of over one point. Stocks grew dull, with a decline in Rubber common a feature. The shares opened at 67, but dropped to 62 3-4 on mixed rumors regarding the outcome of the dividend meeting to be held later in the day. Steel turned weak, but found a level at 62. Union Pacific touched a level at 62. Union Pacific touched 153 5-8. Reading was active, selling at 162 1-4. Chesapeake declined to 70 on rumors of dood damage. About the noon hour Can became ac-lye and strong, and Rubber made a sharp recovery to 64 1-2. Amalgamated,

which grew firm on reports of increased demand for the metal, became active on buying orders executed by brokers known to represent the producing in-terests. Traders called this a good sign, and aided the movement. up nearly every stock on the list. Steel closed strong at 63 1-2, and Union Pa-cific was active at 155. Reading on

events now prove that as an adverse market factor his passing has been overdiscounted.

The Street is promised a further rise in the copper stocks, a continuation of the advance in the Can shares and early developments favorable to Read-

ing stockholders.

The Rumely report has at last been made public. As the figures show little more than 5 per cent on the common stock after the proper deductions for interest on the notes, the recent weak-ness in the stock is explained. As every effort was used to make a good showing, the results are anything but satisfactory.

Late in the afternoon, after the close

He

Late in the afternoon, after the close of the exchange. United States Rubber common declared the quarterly dividend of 1 1-2 per cent, placing the stock on a 6 per cent basis. Some curiosity is felt as to how this showing was arrived at.
